

Biologisches Kolloquium

Wintersemester 2012/2013

Datum	Sprecher	Thema	Ansprechpartner
22.10.	Dr. Andreas Houben (IPK Gatersleben)	How to become and how to survive as selfish chromosome	Prof. Puchta
5.11.	PD Dr. Matthias Brock (HKI and University of Jena)	"Sit and Wait" versus "Hide and Escape": Different Strategies of Closely Related Fungi in Host Infection	Prof. Fischer
19.11.	Dr. Axel Mithöfer (MPI Jena)	Plant-Insect Interactions: From Herbivore Recognition to Defenses	Dr. Riemann
26.11.	Prof. Dr. Georg Fuchs (University of Freiburg)	From Inorganic to Organic: Carbon Assimilation in Bacteria	Prof. Gescher
3.12.	Prof. Dr. Harald Horn (KIT)	Fecal Indicator Bacteria and Bathing Water Quality in Urban Rivers	Prof. Gescher
17.12.	Prof. Dr. Wilhelm Schäfer (University of Hamburg)	Mycotoxin Production During Infection of Cereals by <i>Fusarium graminearum</i>	Prof. Kämper
14.1.	Prof. Dr. Martha Merrow	Circadian Clocks and How They Control our Lives	Prof. Fischer
28.1.	Prof. Dr. Claus Schwechheimer (TU Munich)	Auxin and Gibberellin signaling converge on the regulation of the GATA factors GNC and GNL	Prof. Requena
4.2.	Prof. Dr. Franz Narberhaus (University of Bochum)	Natural and Synthetic RNA Thermometers	Prof. Fischer

17:30 Uhr, Criegée-Hörsaal, Fritz-Haber-Weg 2-6
