

## Biologisches Kolloquium 2016 / 2017

Datum	Sprecher	Thema	Kontakt
7.11.	<b>Prof. Dr. Florian Frugier</b> (Institute of Plant Sciences, Paris)	Interactions between developmental and environmental responses in legume plants	Prof. Requena
14.11.		Doktorandenseminar	Prof. Orian-Rousseau
28.11.	<b>PD. Dr. Tilmann Lüders</b> (Helmholtz Zentrum München)	wird noch bekannt gegeben.	Prof. Gescher
5.12.	<b>Prof. Dr. Rolf Dillner</b> (University of Kaiserslautern)	Ultrafast Spectroscopy on Biological Systems	Prof. Lamparter
12.12.	<b>Prof. Dr. Bernhard Hube</b> (Hans-Knöll Institute, Jena)	From commensalism to pathogenicity: stages of <i>Candida albicans</i> infections	Dr. Fischer
19.12.		Doktorandenseminar	Prof. Orian-Rousseau
9.1.	<b>Prof. Dr. Christian Ungermann</b> (University of Osnabrück)	Function of the Rab7-like Ypt7 in endolysosomal biogenesis	Prof. Kämper
16.1.	<b>Prof. Dr. Reinhard Kunze</b> (University of Berlin)	The maize Ac/Ds transposable elements: Genetics and Applications	Prof. Kämper
23.1.	<b>Prof. Dr. Julia Vorholt</b> (ETH Zürich)	The leaf microbiota: responses to and impacts on plants	Prof. Fischer
30.1.	<b>Prof. Dr. Katerina Schwarzerova</b> (University of Prag)	The ins and outs of nuclear tubulin	Prof. Nick
6.2.	<b>Dr. Dirk Holtmann</b> (DECHEMA, Frankfurt)	Electrifying white biotechnology - interdisciplinary research at DECHEMA research institute	Prof. Gescher

**17:30 Uhr, Criegee-Hörsaal, Fritz-Haber-Weg 2-6**
