

# Biologisches Kolloquium

## Sommer 2017

| Datum | Sprecher  | Thema   | Kontakt              |
|-------|---|---|----------------------|
| 8.5.  | <b>Prof. Dr. Heinz Osiewacz</b><br>(University of Frankfurt)  | Mitochondrial Quality Control: Impact on Biological Aging                                 | Prof. Fischer        |
| 15.5. |   | Doktorandenseminar  | Prof. Orian-Rousseau |
| 29.5. | <b>Prof. Dr. Erika Kothe</b><br>(University of Jena)          | Ectomycorrhizosphere interactions   | Prof. Requena        |
| 19.6. |   | Doktorandenseminar  | Prof. Orian-Rousseau |
| 26.6. | <b>Prof. Dr. John F. Allen</b><br>(University College London) | Why do chloroplasts and mitochondria contain DNA?   | Prof. Lamparter      |
| 3.7.  | <b>PD Dr. Markus Künzler</b><br>(ETH Zürich)                  | Circular proteins and peptides as fungal defense effectors against bacteria and nematodes | Prof. Fischer        |
| 10.7. | <b>Dr. Emmanuel Gaquerel</b><br>(University of Heidelberg)    | Navigating insect-induced changes in plant secondary metabolism                           | Dr. Riemann          |

17:30 Uhr, Criegee-Hörsaal, Fritz-Haber-Weg 2-6

gez. R. Fischer (0721-60844630)
