

# Biokolloq Biology Seminar Series

## Summer Semester 2026

Date and Venue: **Monday, 15:45, Criegee Lecture Hall** (Building 30.41)

Date	Speaker	Title
04.05.2026	<b>Prof. Anne Spang</b> Biozentrum Basel	A little stress is good for you
11.05.2026	<b>Prof. Yen-Ping Hsueh</b> MPI for Biology Tübingen	Carnivorous Fungi: Mechanisms and Evolution of Nematode Predation
18.05.2026	<b>Prof. Stanislav Kopriva</b> University of Cologne	Sulfur homeostasis in plant-microbe interactions
01.06.2026		
08.06.2026	<b>Prof. Raghendra Gadagkar</b> IISc Bangalore, India	War and Peace: Conflict and Cooperation in a Tropical Insect Society
15.06.2026	<b>Prof. Manuel Sanchez Lopez-Berges</b> , University of Córdoba	Accessory chromosomes in fungi
22.06.2026	<b>Dr. Alexander Förderer</b> MPI Golm	Structure-guided engineering of plant-microbe interactions
29.06.2026	<b>Prof. Ulrike Endesfelder</b> University of Bonn	Single-Molecule Microscopy as a Quantitative Tool for In Vivo Studies in (Micro)Biology
06.07.2026	<b>Prof. Charissa de Bekker</b> Utrecht University	Unraveling the zombie-making strategies of <i>Ophiocordyceps</i> fungi
13.07.2026	<b>Dr. Deborah Kronenberg-Versteeg</b> , DZNE Tübingen	Investigating microglia in human and humanized systems from cellular states to functional outcomes
20.07.2026		
27.07.2026	<b>Prof. Petra Dersch</b> University of Münster	Reprogramming of bacterial and host response during an enteric <i>Yersinia</i> infection.
